

O F F E E R

According to our terms of business we offer as follows, without obligation, subject to prior sale:

1 used blow moulding machine

Manufacturer:	KRUPP- KAUTEX
Type:	KB 150, up to 220 liter Volume, (depending on article design)
Year of construction:	1977
Extruder type:	S 100 / 20d
Extrudersize:	100 / 20d, grooved barrel, HDPE
Extrudermotor:	15,5 kw – 68 kw
Heaters:	21 kw
Control cabinet:	Moog TMC -Control
Head Type:	Kautex accuhead, 12 Liter, Fifo system
Platen length:	max: 800 mm, (mould length max. 1.200 mm)
Platen width:	max: 900 mm
Mould depth:	2 x 370 mm
Mould weight:	2 x 1.250 kgs
Clamping force:	720 KN
Daylight opening:	min: 700 mm, max: 1. 500 mm (2 x 400 mm cylinder stroke)
Electronic parison programmer:	Moog 100 points, included in Moog TMC control
Parison length controller:	included in Moog TMC control
Parison spreader:	2-finger spreading device
Take out unit:	automatic gripper system

EXTRAS:

- **New electric cabinet with Moog TMC control, equipped in 1999**
- **Proportional control for mould movement (open/close)**
- **Machine equipped for manufacturing technical parts**
- **Machine is in good condition, frequently maintained**

Price for above described machine, ex works:
